said, “and prioritizing my fitness has become very important to me as I age. Every year I have an executive physical performed at the Mayo Clinic in Rochester. The physicals in addition to my strength training appointments at Fitness First make me feel very comfortable with the emphasis I am placing on my health. I live in Eagan, work in Edina and find no issue with the drive because the efficient, effective results I am achieving at Fitness First. I have accomplished so much more than if I would have purchased a membership at a commercial health club and attempted to workout on my own. The equipment and staff at Fitness First have been a large part of my success. The instructors safely and efficiently challenge me through my strength training appointments taking extra time to make sure I clearly understand exactly how I am suppose to perform each activity. I feel much stronger and more energized. I am also a stronger cyclist and sailor as a result of my strength training appointments at Fitness First. My plans are to strength train at Fitness First for a very long time as I continue to prioritize my health. I feel fantastic!”
